Education system

✅ **Training**

Choosing a course

Viewing video material with interactivity

✅ **Exam**

Passing the game (exam)

For the correct completion of the game, the player receives 1 coin for the correct answer

✅ **Purchase / Donations**

What can i do with coins?

-Buy goods in the store (from partners)
-Buy paid courses
-Add monet to create a lesson
-Add money to an emerging startup

(All this can be done with cash, too)

Business model

Key partners

- Nasa
- Foreign space programs
- Universities

Key attraction

attraction:

advertising in social networks, the opportunity to earn on the application (PR)

retention:

work support, content updates in the app and in social networks

Key Resources

- Information and Data about space programs
-
- Servers
- Teachers
- Programmers
- Animators

Value propositions

- high level of expert content in simple language in the app

- opportunity to get instant benefits for studying

Customer Relationships

a playful but not too childish application interface , and active social networks

Channels

social networks, PR, word of mouth

Service: Web Application

Customer Segments

children from 10 -22 interested in space, movies, anime, in search of themselves,

Cost structure

- creation and development
- content
- advertising
- salary of employees
